

Measuring and dosing equipment

Pahlén Cloud Service

Two choices of gateways for Ethernet connection or Mobile network uplink. Cloud service access by any platform; PC, smartphone, tablet.

Autodos® RAM

Remote Access Monitoring

With Autodos® RAM it is easy to analyze your Autodos-system online. A turnkey solution for a complete IT-infrastructure without building own network management. The cloud service is online and all data is stored on remote secure global servers.

Graphical log data for every value measured by Autodos. Built-in reporting tool for accessing detailed weekly export report. Additional features for historical comparison of values, Google maps function for easy overview, managing and access to several projects and systems.

Features

- 50 000 log points included/system and year
- Regular reports
- History logs with measured data and alarms
- Up to 9 system languages available
- Map function showing system locations
- Two user login for individual project access with customized user rights
- Report module for online data or trend analysis
- Active alarms online or via e-mail/SMS
- No software needed, access via web browsers; e.g. Firefox, Safari or Chrome etc.

Manage and analyze Autodos on internet cloud service.
